The Proposal and Design Process

Once we have this completed questionnaire, we will compile it and send you a proposal for the cake. It will outline the cost of the cake and shipping, what will be included in the cake, and the time required to complete the cake. If we have something similar in stock, we will send you pictures with the proposal to see if it will fit your needs. (Once we have received this proposal: avg. 2 Business days)

To accept the proposal, you simply sign and fax the proposal back to us. A 50% deposit is required on all custom cakes. Then, work on your custom creation will begin!

Once work on your cake is complete, we will carefully wrap the cake in cellophane, tie it with a bow, and finish it with a handwritten card (should you choose to add one). Then we wrap the cake in packing materials and ship it to you. The final balance of the custom cake is due before the cake ships, so we will invoice you at that time. (Once we have received deposit/accepted proposal: approx 3 business days)

In the past, this process has taken as little as 3 business days, or as many as 14 business days.

Note: We do not send photos of the cake before it has been completed. All final Diaper Cake designs are intellectual property of UltimateBabyBoutique.com

Please let us know if you have any questions, and we look forward to working with you!
